**Get JoomConnect on your Facebook!**

Make your Facebook Page that much more dynamic with customized content and forms that integrate back to ConnectWise!

With 800 million active users on Facebook talking and sharing all the time, the social network is a gold mine for marketing and networking when done right. Combined with the **Ultimate Social Rig**,

which gives you an intuitive online social media dashboard so you can manage and schedule out updates to multiple social networks, **JoomConnect Facebook Pages** brings the functionality of your website and JoomConnect to Facebook.

**Website Content, JC Forms, and More**

*JoomConnect Facebook Pages makes it easy to display new content on your Facebook Business Page.*

Display virtually any Joomla content using a Menu Item on your website. Display your news, services, blog, testimonials, promotional and landing pages, and let your fans submit tickets, register for events, and kick off service tickets, opportunities, schedule activities, and attach marketing groups and tracks automatically in your ConnectWise.

Once the content is on Facebook, you can edit it right from your Facebook page using your Joomla WYSIWYG editor!

**Get Even More from Facebook**

Facebook and social media marketing are extremely valuable on their own, but with *JoomConnect Facebook Pages, the sky is the limit!*

With JoomConnect on your Facebook Page, you can:

- Load the JC Quick Ticket Module for easy support ticket creation.
- Create a registration form for an upcoming event that schedules the activity.
- Track everyone who fills out a form on Facebook to a specific marketing group.
- Kick off a track, marketing group, and schedule an activity whenever a logged in user lands on a specific area of your Facebook page with Landmines
- Load promotional automation templates
- And so much more!
